The biologist and award-winning author journeys deep inside the Amazon rainforest in this eloquent and insightful look at one of earth ' s last wild places. For thirty years, biologist David G. Campbell has been exploring the lush wilderness, of the western Amazon, which contains more species than ever existed anywhere on our planet. In *A Land of Ghosts*, Campbell takes readers on his latest venture. In Cruzeiro do Sul, 2,800 miles from the mouth of the Amazon, Campbell collects three old friends: Arito, a caiman hunter turned paleontologist; Tarzan, a street urchin brought up in a bordello; and Pimentel, a master canoe pilot. Heading further into the rainforest, they survey every living woody plant they can find. The land is so rich that an area of less than fifty acres contains three times as many tree species as all of North America. Campbell knows the trees individually, and he knows the wildlife and the people as well: the recently arrived colonists with their failing farms; the Caboclos, masters of hunting, fishing, and survival; and the refugee Native Americans. These people live in a land whose original inhabitants were wiped out by centuries of disease, slavery, and genocide, taking their traditions and languages with them: a land of ghosts.

Until the end of World War II, East Prussia was the German empire's farthest eastern redoubt, a thriving and beautiful land on the southeastern coast of the Baltic Sea. Now it lives only in history and in myth. Since 1945, the territory has been divided between Poland and Russia, stretching from the border between Russia and Lithuania in the east and south, and through Poland in the west. In *Forgotten Land*, Max Egremont offers a vivid account of this region and its people through the stories of individuals who were intimately involved in and transformed by its tumultuous history, as well as accounts of his own travels and interviews he conducted along the way. *Forgotten Land* is a story of historical identity and character, told through intimate portraits of people and places. It is a unique examination of the layers of history, of the changing perceptions and myths of homeland, of virtue and of wickedness, and of how a place can still overwhelm those who left it years before.
