When ISIS detonates nuclear weapons in two key American strongholds, the United States plunges into chaos and the CIA scrambles to prevent a third tragedy in *Without Mercy*, a terrifying and topical thriller from Colonel David Hunt and R.J. Pineiro. The unthinkable has happened: ISIS, covertly assisted by Pakistan's intelligence services, has acquired nuclear weapons and the ability to deliver them anywhere in the world. They begin with an attack at Bagram Airfield, America's largest military base in Afghanistan. A second weapon is detonated in Battery Park in New York City. The blast levels a square mile of Manhattan, including the Financial District. Hundreds of thousands perish. The American economy is in chaos. Banks close their doors. The U.S. supply chain is disrupted. Riots and looting break out

while enemies in the Middle East burn U.S. flags in celebration. The stakes skyrocket when Islamabad CIA Station Chief Bill Gorman unearths evidence of a third bomb headed our way. Across two continents the chase is on to find the runaway terrorists led by the ruthless and capable Salma Bahmani, star agent of Pakistan's Inter-Services Intelligence, the dread ISI. She will stop at nothing to deliver what could be the final nail in America's coffin. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

of decadence. By the author of *The Magician's Tale*. Reprint.

No more politics—just the truth about what we can and must do to protect ourselves. Fox News military analyst Colonel David Hunt has dedicated his career to fighting terrorism. A twenty-nine-year U.S. Army veteran, he has helped take out an active terrorist camp, trained the FBI and Special Forces in counterterrorism tactics, and served as security adviser to six different Olympic Games. And Colonel Hunt is angry. Why? Because even after the terrorist attacks on our country and on Americans around the world, the people charged with protecting us—the politicians and the bureaucrats in military and intelligence—still aren't getting the job done. *They Just Don't Get It* provides a much-needed wake-up call to all

Americans. As politicians posture and pundits bicker, we're losing sight of the fundamental problem: We're still not equipped to win the War on Terror. In fact, the terrorist threat is far worse than we feared, as made frighteningly clear by the fifty pages of documents published here for the first time—including a shocking manual taken from the terrorists themselves. But instead of just complaining, Colonel Hunt tells us exactly what we must do—without regard to political game-playing—to emerge victorious in the challenge that history has given us. These are changes we can make at every level—as individual citizens, as a government, and as a military power. As he shows in this book, while the government and our military lead the fight to protect us, ordinary citizens can and must contribute. They Just Don't

Get It reveals: • What you can do to keep your family safe • How many of the government's recent "reforms" are mere window dressing or, worse, counterproductive • How we can fight this war and still safeguard our civil liberties and the American way of life • How to fix the intelligence disaster (and yes, the politicians in D.C. still haven't fixed it) • How we got into this mess in the first place: it's mostly because our government let the problem fester for three decades Colonel Hunt is no cautious bureaucrat or finger-pointer looking for political gain. He is a straight shooter with deep insight into what's happening in the War on Terror—on the ground and in the government. They Just Don't Get It lays out in clear and compelling terms the steps we must take—all of us—to win the War on Terror and ensure our survival as a free, proud, and

strong nation. From They Just Don't Get It We're fighting a war for our very survival, so we'd better figure out how to win. That's why I'm writing this book—to show us how we can win, how we can protect ourselves. As a Fox News military analyst, I'm paid to offer insight into how our armed forces are conducting the fight against our enemies. But this book shows that to win the War on Terror we need to concern ourselves with more than just military tactics. For one thing, we need to look at what our political leaders are doing. The sad truth is that they still don't get it. Then there's intelligence. You've heard about our intelligence failures, but I doubt you know how bad it really is—even after the “reforms.” I'm going to tell you. And another critical dimension to this story usually gets overlooked—what you can

Girt. No word could better capture the essence of Australia ... In this hilarious history, David Hunt reveals the truth of Australia's past, from megafauna to Macquarie - the cock-ups and curiosities, the forgotten eccentrics and Eureka moments that have made us who we are. Girt introduces forgotten heroes like Mary McLoghlin, transported for the crime of "felony of sock," and Trim the cat, who beat a French monkey to become the first animal to circumnavigate Australia. It recounts the misfortunes of the escaped Irish convicts who set out to walk from Sydney to China, guided only by a hand-drawn paper compass, and explains the role of the coconut in

Australia's only military coup. Our nation's beginnings are steeped in the strange, the ridiculous and the frankly bizarre. Girt proudly reclaims these stories for all of us. "Hilarious and insightful -- Hunt has found the deep wells of humour in Australia's history." - Chris Taylor, The Chaser

When a heavily financed terrorist organization begins a campaign of attacks on U.S. soil, recently retired Colonel David Gibson and political consultant Christina Marchetti are catapulted into a whirlwind race to prevent World War III.

New York Times bestselling author Col. David Hunt and R. J. Pineiro have teamed up for a second action-packed, Hunter Stark thriller steeped in authenticity: *Without Fear*. Southern Afghanistan, 2005. NATO forces are battling the Taliban across Kandahar Province. In a terrifying twist, the rebels unearth a tactical nuclear bomb lost in the final days of the Soviet occupation. The years buried in the sand have damaged it, so the Taliban seeks the help of al Qaeda to secure replacement parts through its contacts in Saudi Arabia, the Opium Cartel, and the Russian Mafia. Doing so, however, inadvertently alerts the Americans, the Russians, and the Israelis. Hunter Stark and his team of CIA contractors are on the chase, dispensing explosive waves of violence to

track where the Taliban is hiding the weapon. But Russian Spetsnaz and Israeli Mossad operatives are also in the region following their own agendas—as is NATO—triggering chaos and confusion. The stakes skyrocket when a courier delivers the components and the weapon becomes functional, forcing Stark to drive full throttle, without fear, into a world of terror, going beyond duty and honor to prevent the unthinkable.
