Modern cars and vans need much less maintenance than the vehicles of 25 years ago, but they still have needs. You no longer have to do a service every 6 months, or change the oil every 3 months, but regular fluid changes are still essential to your vehicle's longevity. What follows is our quick reference guide to many of the recommended routine maintenance tasks for the Ford Focus (2006 to 2011 petrol engines), most of which you can do yourself at home.

P0087 is a relatively common OBD II trouble code. This code indicates that there is an issue with getting enough fuel pressure to the fuel rails. It's generic, which means that it has the same meaning for the Ford Focus as it would any other vehicle. This code is most common on vehicles that use a returnless fuel system.
