"In each of 56 activities, students solve problems to find specific points to plot on graph paper. As they come up with the correct answers, they create pictures ranging from a dragonfly to a gas pump!" -- from cover.

Engage students in grades 3-5 and build their confidence using Coordinate Graphing: Hidden Pictures. This 80-page book provides hands-on activities for each week of the school year and ways to differentiate instruction while teaching essential, standards-based graphing skills! Students plot ordered pairs and draw line segments to reveal hidden pictures while creative clues encourage guesses along the way. This resource provides practice for first-quadrant and four-quadrant graphing, teaches graphing vocabulary, and includes up to five questions about each graph. It supports NCTM standards and aligns with state, national, and Canadian provincial standards.

Reproducible worksheets on which a child colors in squares on graph paper according to directions on the direction sheet and a mystery picture appears.
