individuals; the design, furnishing and appearances of cities, sanctuaries, houses and tombs; and the characteristic themes of Hellenistic iconography.

His vast territory, split up among his generals after his premature death, was ruled by several great Hellenistic dynasties, whose kingdoms encompassed a variety of strongly independent cultural traditions. Eventually, by the late first century BC, all of the Hellenistic kingdoms had come under the dominion of Rome.

Surveys the arts of antiquity from painting to architecture in the period before the fall of classical Greece, with interpretive comment on numerous plates and illustrations

The Hellenistic period—the nearly three

Online Library Hellenistic Art From Alexander The

Great To Augustus centuries between the death of Alexander the Great, in 323 B.C., and the suicide of the Egyptian queen Kleopatra VII (the famous "Cleopatra"), in 30 B.C.—is one of the most complex and exciting epochs of ancient Greek art. The unprecedented geographic sweep of Alexander's conquests changed the face of the ancient world forever, forging diverse cultural connections and exposing Greek artists to a host of new influences and artistic styles. This beautifully illustrated volume examines the rich diversity of art forms that arose through the patronage of the royal courts of the Hellenistic kingdoms, placing special emphasis on Pergamon, capital of the Attalid dynasty, which ruled over large parts of Asia Minor. With its long history of German-led excavations, Pergamon provides a superb paradigm of a Hellenistic capital, appointed with important civic institutions—a great library,

Online Library Hellenistic Art From Alexander The

Great To Augustus theater, gymnasium, temples, and healing center—that we recognize today as central features of modern urban life. The military triumphs of Alexander and his successors led to the expansion of Greek culture out from the traditional Greek heartland to the Indus River Valley in the east and as far west as the Strait of Gibraltar. These newly established Hellenistic kingdoms concentrated wealth and power, resulting in an unparalleled burst of creativity in all the arts, from architecture and sculpture to seal engraving and glass production. Pergamon and the Hellenistic Kingdoms of the Ancient World brings together the insights of a team of internationally renowned scholars, who reveal how the art of Classical Greece was transformed during this period, melding with predominantly Eastern cultural traditions to yield new standards and conventions in taste and style.

What was Hellenistic art, and what were its contexts, aims, achievements, and impact? This textbook introduces students to these questions and offers a series of answers to them. Its twelve chapters and two "focus" sections examine Hellenistic sculpture, painting, luxury arts, and architecture. Thematically organized, spanning the three centuries from Alexander to Augustus, and ranging geographically from Italy to India and the Black Sea to Nubia, the book examines key monuments of Hellenistic art in relation to the great political, social, cultural, and intellectual issues of the time. It is illustrated with 170 photographs (mostly in color, and many never before published) and contextualized through excerpts from Hellenistic literature and inscriptions. Helpful ancillary features include maps, appendices with

For the general public and specialists alike, the Hellenistic period (323–31 BC) and its diverse artistic legacy remain underexplored and not well understood. Yet it was a time when artists throughout the Mediterranean developed new forms, dynamic compositions, and graphic realism to meet new expressive goals, particularly in the realm of portraiture. Rare survivors from antiquity, large bronze statues are today often displayed in

Great To Augustus
isolation, decontextualized as masterpieces of ancient art. Power and Pathos gathers together significant examples of bronze sculpture in order to highlight their varying styles, techniques, contexts, functions, and histories. As the first comprehensive volume on large-scale Hellenistic bronze statuary, this book includes groundbreaking archaeological, art-historical, and scientific essays offering new approaches to understanding ancient production and correctly identifying these remarkable pieces. Designed to become the standard reference for decades to come, the book emphasizes the unique role of bronze both as a medium of prestige and artistic innovation and as a material exceptionally suited for reproduction. Power and Pathos is published on the occasion of an exhibition on view at Palazzo Strozzi in Florence from March 14 to June 21, 2015; at the J.
