Key drivers of a 21st century academic "revolution" are identified in a trend report produced for this week's UNESCO World Conference on Higher Education. The drivers are the massification of tertiary systems everywhere, the 'public good' versus 'private good' debate, the impacts of information and communications technology, and the rise of the knowledge economy and globalisation.

The French revolution in higher education is starting to bear fruit. PSL ' s high entry position in the THE World University Rankings reflects one of the ambitions of France ' s programme of mergers, say John Ludden, Philippe Le Prestre and Jean-Marc Rapp. Earlier this month, a French university with an unfamiliar name, Paris Sciences et Lettres – PSL Research University Paris, entered the Times Higher Education World University Rankings at an eye-catching 72nd position, becoming France ...

The new social contract envisioned by Richard DeMillo in his insightful and arresting new book, Revolution in Higher Education, is one that must be achieved if we are to succeed as a nation. DeMillo makes a compelling argument for the notion that a small band of innovators could generate an entire symphony of outcomes that make higher education more accessible, more affordable, and ultimately more aligned with the growing demand for talent that is shaping our twenty-first-century economy and ...

Revolution in Higher Education | The MIT Press

Education of this kind “ fills the realm full of indigent, idle, and wanton people, which are but materia rerum novarum, ” or “ the stuff of revolutions. ”  
Higher education, in other words, teaches the humble to be proud, then resentful, then rebellious.

Higher Education – The Higher Education Revolution

The Academic Revolution describes the rise to power of professional scholars and scientists, first in America's leading universities and now in the larger society as well. Without attempting a full-scale history of American higher education, it outlines a theory about its development and present status.

It examines the causes of the sharp shift in educational practices and analyses how these new systems of higher education are regulated, evaluating the extent to which the new universities and colleges are improving quality.

Higher Education Revolutions in the Gulf eBook by Fatima ...

Reaching the period exactly before the revolution, the idea of a general education started to develop in France. Since that, during the French revolution (1789-1799) The state of the country was not stable at all, most people would think that the education is the last thing French people would think about in such crises, but the truth was that the leaders of the revolution had the education in their priorities.
