The seven Golden rules of Learning-raises some interesting points for me. I have been teaching in the classroom for fifteen years and applying these ground rules. Now moving across to a blended learning model I question how I will accommodate the individual learning styles to best support the student.

Machine learning and rules-based systems are widely used to make inferences from data. The two approaches have their strengths and weaknesses, and it is useful to have a grasp of both. Although not as hyped at the moment, rules-based systems do still have their place and it is worth understanding the distinction between these methods and where they might be valuable.
