The Making of a Socialist - CounterPunch.org
Histories of British socialism are nothing new, with classic studies in the field going back to G. D. H. Cole. Mark Bevir ' s new book, however, comes from a slightly different perspective, in that it focuses on the ' making ' of British socialism in, broadly, the final quarter of the 19th century. It has been argued that British socialism is not really a fixed and definitive thing but ...

Donate to the Socialist Party Coronavirus crisis - Finance appeal. The coronavirus crisis has laid bare the class character of society in numerous ways. It is making clear to many that it is the working class that keeps society running, not the CEOs of major corporations.

Socialist Party :: Friedrich Engels: A revolutionary who ...
Updated June 10, 2020. Socialism is an economic system where everyone in society equally owns the factors of production. 1 That ownership is acquired through a democratically elected government or through a cooperative or a public corporation in which everyone owns shares. The four factors of production are labor , capital goods , natural resources, and, in the modern era, entrepreneurship.

Socialism: Definition, Pros, Cons, Examples, Types
Hundreds packed into the big room at the Casa pub in Liverpool, the venue of the Socialist Party's weekly meetings, for the launch of the late Tony Mulhearn's autobiography - The Making of a Liverpool Militant - just days after his sad passing. The room was overflowing. There wasn't even standing space left!

The Making of British Socialism | Princeton University Press
Friedman ' s conception of decision-making in socialism, like that of the WSM, consists of two elements. The first is the proceedings of elected councils at various levels, supplemented by procedures of direct democracy such as referenda.

Decision-making in socialism: how to meet needs?
Socialism, social and economic doctrine that calls for public rather than private ownership or control of property and natural resources. According to the socialist view, individuals do not live or work in isolation but live in cooperation with one another. Furthermore, everything that people produce is in some sense a social product, and everyone who contributes to the production of a good is entitled to a share in it.

A key element in its success is the way the Chinese inserted themselves into the global market (capitalist) on their own terms, gradually, and making use of very protectionist conditions (socialist). There are several examples of very well balanced mixes in democracies too: Germany, Scandinavia, Japan, Korea, New Zealand, Canada.

Pragmatism should be the dogma, not capitalism or socialism
A. Lee asks if ' Rewilding ' is just a way for capitalism to sell us stuff. Well, yes and no. The origins of the word are in ecology, but in capitalism ' s drive to market new products, companies have latched onto the word " rewilding " as the latest desirable thing. In recent years there has ...

A compelling look at the origins of British socialism The Making of British Socialism provides a new interpretation of the emergence of British socialism in the late nineteenth century, demonstrating that it was not a working-class movement demanding state action, but a creative campaign of political hope promoting social justice, personal transformation, and radical democracy. Mark Bevir shows that British socialists responded to the dilemmas of economics and faith against a background of diverse traditions, melding new economic theories opposed to capitalism with new theologies which argued that people were bound in divine fellowship. Bevir utilizes an impressive range of sources to illuminate a number of historical questions: Why did the British Marxists follow a Tory aristocrat who dressed in a frock coat and top hat? Did the Fabians develop a new economic theory? What was the role of Christian theology and idealist philosophy in shaping socialist ideas? He explores debates about capitalism, revolution, the simple life, sexual relations, and utopian communities. He gives detailed accounts of the Marxists, Fabians, and ethical socialists, including famous authors such as William Morris and George Bernard Shaw. And he locates these socialists among a wide cast of colorful characters, including Karl Marx, Henry Thoreau, Leo Tolstoy, and Oscar Wilde. By showing how socialism combined established traditions and new ideas in order to respond to the changing world of the late nineteenth century, The Making of British Socialism turns aside long-held assumptions about the origins of a major movement.

David Lane outlines succinctly yet comprehensively the development and transformation of state socialism. While focussing on Russia and the countries of Eastern Europe, he also engages in a discussion of the Chinese path. In response to the changing social structure and external demands, he outlines different scenarios of reform. He contends that European state socialism did not collapse but was consciously dismantled. He brings out the West ' s decisive support of the reform process and Gorbachev ' s significant role in tipping the balance of political forces in favour of an emergent ascendant class. In the post-socialist period, he details developments in the economy and politics. He distinguishes different political and economic trajectories of countries of the former USSR, the New Member States of the European Union, and China; and he notes the attempts to promote further change through ' coloured ' revolutions. The book provides a detailed account not only of the unequal impact of transformation on social inequality which has given rise to a privileged business and political class, but also how far the changes have fulfilled the promise of democracy promotion, wealth creation and human development. Finally, in the context of globalisation, the author considers possible future political and economic developments for Russia and China. Throughout the author, a leading expert in the field, brings to bear his deep knowledge of socialist countries, draws on his research on the former Soviet Union, and visits to nearly all the former state socialist countries, including China.

This unique political and biographical document records the words of T.C. Douglas, one of Canada's first and foremost Socialist leaders, in a series of transcribed interviews conducted in 1958 with political journalist Chris Higginbotham.

Eastern European prefabricated housing blocks are often vilified as the visible manifestations of everything that was wrong with state socialism. For many inside and outside the region, the uniformity of these buildings became symbols of the dullness and drudgery of everyday life. Manufacturing a Socialist Modernity complicates this common perception. Analyzing the cultural, intellectual, and professional debates surrounding the construction of mass housing in early postwar Czechoslovakia, Zarecor shows that these housing blocks served an essential function in the planned economy and reflected an interwar aesthetic, derived from constructivism and functionalism, that carried forward into the 1950s. With a focus on prefabricated and standardized housing built from 1945 to 1960, Zarecor offers broad and innovative insights into the country ' s transition from capitalism to state socialism. She demonstrates that during this shift, architects and engineers consistently strove to meet the needs of Czechs and Slovaks despite challenging economic conditions, a lack of material resources, and manufacturing and technological limitations. In the process, architects were asked to put aside their individual creative aspirations and transform themselves into technicians and industrial producers. Manufacturing a Socialist Modernity is the first comprehensive history of architectural practice and the emergence of prefabricated housing in the Eastern Bloc. Through discussions of individual architects and projects, as well as building typologies, professional associations, and institutional organization, it opens a rare window into the cultural and economic life of Eastern Europe during the early postwar period.

Excerpt from The Making of a Socialist: Le Document Humain As the story of a working man, who by force of circumstances was forced from the bench, to give his time to reading and study, and thus to see things a little more intelligently than many of the workers have opportunity to do, I want this sketch of my life to be considered. I have ventured to have this story published for several reasons one is, that several who read it in the New York Call have written to me suggest ing such a course; another is, that while we have built up a good scientific literature of Socialism here in America, yet we are short of books of lighter vein, biography, fiction, poetry mere literature with us is scant, soi feel there is a place for such a book; again I don't know why the story is not well enuf told to be put into a book; but the reason above all others is, that my faith in the Cause is such, that I would rather myname be permanently connected with it than with anything else. The Making of My Socialism I consider the most important thing in my life; for the Cause, I have thrown away any chances I may have had of professional success; I have sacrificed many things that once loomed big for me, and thus I want to put on record my affiliation with the International Socialist Movement. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. For more than 50 years, John Cort has been at the center of most of the social movements of our time. Writer, reporter, teacher, activist, Cort has spent his life fighting good fights, whether on a Boston newspaper, with the Peace Corps in the Philippines, as a labor leader, or in dozens of campaigns for justice, peace and human rights. Here is John Cort's story--the measure of an exemplary life and a vivid, personal chronicle of American radicalism across virtually every major struggle. At its heart, this is also the story of what it means to take seriously the distinctively radical Catholic vision that informs American political and religious life in this century. It started in 1935, when Cort converted to Catholicism as a Harvard undergraduate. A year later, he was in New York City on the staff of the Catholic Worker, working with such legendary figures as Dorothy Day and Peter Maurin. Plunged into the class wars of the Depression, Cort began a 20-year commitment to organizing workers, notably through the Association of Catholic Trade Unionists. Later, Cort served many social action causes while continuing to teach, report, and write. Whether running a model Cities program, a newspaper guild, or a homeless shelter, or as a delegate to a world apostolic congress, Cort brought to life in his radicalism and his socialism the teachings of Catholic activism embodied most vividly by Dorothy Day and John XIII. Desperate Conversions is a unique primer in Catholic social theory, told in the chapters of John Cort's own life. Quirky, personal, distinctive, his memoir captures one of the great stories of our American century--and tells it in a voice no one can forget.

An expansive and ambitious intellectual history of democratic socialism from one of the world ' s leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism—a democracy in which the people control the economy and government, no group dominates any other, and every citizen is free, equal, and included. With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany, this book traces the story of democratic socialism from its birth in the nineteenth century through the mid-1960s. Examining the tenets on which the movement was founded and how it adapted to different cultural, religious, and economic contexts from its beginnings through the social and political traumas of the twentieth century, Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption. He argues for a decentralized economic democracy and anti-imperial internationalism.
