automakers. With the Z, Datsun gave the world a sleek, sexy, fast product—one that forever banished the idea that Japanese manufacturers could only build economy cars. Over the past 50 years, six generations of the Z car have generated a massive, devoted following. More than 1.5 million cars have been sold worldwide. The retro-inspired 350Z reinvigorated the Z's fortunes in the 21st century, and the latest incarnation, the 370Z, continues the tradition of high-performance in a modern, affordable package. In addition to a complete history of the Z, this handsomely illustrated book examines the car's significant racing history with successes in IMSA and SCCA sports car racing, including extensive racing by Paul Newman for Bob Sharp and John Morton with Brock Racing Enterprises. Special attention is devoted to the cult of Z-fans around the world who have supported Nissan's sports car through thick and thin and the early car's emergence as a rapidly appreciating collector car. The story is told by author Pete Evanow, who has enjoyed a long relationship with Nissan. His insights into the history of this automotive icon provide a fresh, compelling perspective on the five decades of the Z that no enthusiast will want to miss.

“An invaluable resource for both new and veteran allies...obvious and necessary” (Library Journal, starred review) information for everyone who wants to learn more about how to navigate gender diversity in today’s families, communities, and workplaces. The days of two genders—male, female; boy, girl; blue, pink—are over, if they ever existed at all. Gender is now a global conversation, and one that is constantly evolving. More people than ever before are openly living their lives as transgender men or women, and many transgender people are coming out as neither men nor women, instead living outside of the binary. Gender is changing, and this change is gaining momentum. We all want to do and say the right things in relation to gender diversity—whether at a job interview, at parent/teacher night, and around the table at family dinners. But where do we begin? From the differences among gender identity, gender expression, and sex, to the use of gender-neutral pronouns like singular they/them, to thinking about your own participation in gender, Gender: Your Guide serves as “a warm, inviting guide to a complicated area” (The Globe and Mail, Toronto). Professor and gender diversity advocate Lee Airton, PhD, explains how gender works in everyday life; how to use accurate terminology to refer to transgender, non-binary, and/or gender non-conforming individuals; and how to ask when you aren't sure what to do or say. It provides the information you need to talk confidently and compassionately about gender diversity, whether simply having a conversation or going to bat as an advocate. Just like gender itself, being gender-friendly is a process for all of us. As revolutionary a resource as Our Bodies, Ourselves, Gender: Your Guide is “greatly needed...an impactful tool for creating a world more supportive of people of all genders” (INTO! Magazine).

For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations. Readers are responsible for designing, implementing and managing the voice, data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce.
