Thirteen-year-old Rigg has a secret ability to see the paths of others' pasts, but revelations after his father's death set him on a dangerous quest that brings new threats from those who would either control his destiny or kill him.

From Orson Scott Card, the internationally bestselling author of Ender ' s Game, comes the first novel in the Pathfinder trilogy, the riveting story of Rigg, a teenager who possesses a special power that allows him to see the paths of people ' s pasts. A powerful secret. A dangerous path. Rigg is well trained at keeping secrets. Only his father knows the truth about Rigg's strange talent for seeing the paths of people's pasts. But when his father dies, Rigg is stunned to learn just how many secrets Father had kept from him—secrets about Rigg's own past, his identity, and his destiny. And when Rigg discovers that he has the power not only to see the past, but also to change it, his future suddenly becomes anything but certain. Rigg ' s birthright sets him on a path that leaves him caught between two factions, one that wants him crowned and one that wants him dead. He will be forced to question everything he thinks he knows, choose who to trust, and push the limits of his talent...or forfeit control of his destiny.

From the internationally bestselling author of Ender ' s Game comes a boxed collection of all three riveting books in the Pathfinder Trilogy! A powerful secret. A deadly path. In Pathfinder, Rigg—a teenager who possesses a secret talent that allows him to see the paths of people ' s pasts—joins forces with another teen with special talents on a quest to find Rigg ' s sister and discover the true significance of their powers. Then Rigg ' s story continues in Ruins, when he must decipher the paths of the past before the arrival of a destructive force that threatens the future of his entire world. And the series comes to an epic and explosive ending in Visitors, as everything that has been building up finally comes to pass and Rigg is forced to put his powers to the test in order to save his world and end the war once and for all.

To prevent the destruction of his planet, teenager Rigg Sessamekesh, who can manipulate time, must assume more responsibility when he and others travel back 11,000 years to the arrival of human starships.

Orson Scott Card's The Lost Gate is the first book in the Mithermages series from the New York Times bestselling author of Ender's Game. Danny North knew from early childhood that his family was different, and that he was different from them. While his cousins were learning how to create the things that commoners called fairies, ghosts, golems, trolls, werewolves, and other such miracles that were the heritage of the North family, Danny worried that he would never show a talent, never form an outself. He grew up in the rambling old house, filled with dozens of cousins, and aunts and uncles, all ruled by his father. Their home was isolated in the mountains of western Virginia, far from town, far from schools, far from other people. There are many secrets in the House, and many rules that Danny must follow. There is a secret library with only a few dozen books, and none of them in English — but Danny and his cousins are expected to become fluent in the language of the books. While Danny's cousins are free to create magic whenever they like, they must never do it where outsiders might see. Unfortunately, there are some secrets kept from Danny as well. And that will lead to disaster for the North family. The Mithermages series The Lost Gate The Gate Thief Gatefather At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

From Orson Scott Card, the internationally bestselling author of Ender ' s Game, comes the riveting finale to the story of Rigg, a teenager who possesses a special power that allows him to see the paths of people ' s pasts. In Pathfinder, Rigg joined forces with another teen with special talents on a quest to find Rigg ' s sister and discover the true significance of their powers. Then Rigg ' s story continued in Ruins as he was tasked to decipher the paths of the past before the arrival of a destructive force with deadly intentions. Now, in Visitors, Rigg ' s journey comes to an epic and explosive conclusion as everything that has been building up finally comes to pass, and Rigg is forced to put his powers to the ultimate test in order to save his world and end the war once and for all.

From the New York Times bestselling author of Enders Game comes a brand-new series following a teen who wakes up on an abandoned Earth to discover that he ' s a clone! Laz is a side-stepper: a teen with the incredible power to jump his consciousness to alternate versions of himself in parallel worlds. All his life, there was no mistake that a little side-stepping couldn ' t fix. Until Laz wakes up one day in a cloning facility on a seemingly abandoned Earth. Laz finds himself surrounded by hundreds of other clones, all dead, and quickly realizes that he too must be a clone of his original self. Laz has no idea what happened to the world he remembers as vibrant and bustling only yesterday, and he struggles to survive in the barren wasteland he ' s now trapped in. But the question that haunts him isn ' t why was he created, but instead, who woke him up...and why? There ' s only a single bright spot in Laz ' s new life: one other clone appears to still be alive, although she remains asleep. Deep down, Laz believes that this girl holds the key to the mysteries plaguing him, but if he wakes her up, she ' ll be trapped in this hellscape with him. This is one problem that Laz can ' t just side-step his way out of.

Orson Scott Card is "a master of the art of storytelling" (Booklist), and The Worthing Saga is a story that only he could have written. It was a miracle of science that permitted human beings to live, if not forever, then for a long, long time. Some people, anyway. The rich, the powerful—they lived their lives at the rate of one year every ten. Some created two societies: that of people who lived out their normal span and died, and those who slept away the decades, skipping over the intervening years and events. It allowed great plans to be put in motion. It allowed interstellar Empires to be built. It came near to destroying humanity. After a long, long time of decadence and stagnation, a few seed ships were sent out to save our species. They carried human embryos and supplies, and teaching robots, and one man. The Worthing Saga is the story of one of these men, Jason Worthing, and the world he found for the seed he carried. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Tales of Alvin Maker series from bestselling author Orson Scott Card continues in volume three, Prentice Alvin. Young Alvin returns to the town of his birth, and begins his apprenticeship with Makepeace Smith, committing seven years of his life in exchange for the skills and knowledge of a blacksmith. But Alvin must also learn to control and use his own talent, that of a Maker, else his destiny will be unfulfilled. The Tales of Alvin Maker series Seventh Son Red Prophet Prentice Alvin Alvin Journeyman Heartfire The Crystal City At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Orson Scott Card and Aaron Johnston return to their Ender's Game prequel series with this first volume of an all-new trilogy about the Second Formic War in The Swarm. The first invasion of Earth was beaten back by a coalition of corporate and international military forces, and the Chinese army. China has been devastated by the Formic's initial efforts to eradicate Earth life forms and prepare the ground for their own settlement. The Scouring of China struck fear into the other nations of the planet, that fear blossomed into drastic action when scientists determined that the single ship that wreaked such damage was merely a scout ship. There is a mothership out beyond the Solar System's Kuiper Belt, and it's heading into the system, unstoppable by any weapons that Earth can muster. Earth has been reorganized for defense. There is now a Hegemon, a planetary official responsible for keeping all the formerly warring nations in line. There's a Polemarch, responsible for organizing all the military forces of the planet into the new International Fleet. But there is an enemy within, an enemy as old as human warfare: ambition and politics. Greed and self-interest. Will Bingenew, Mazer Rackam, Victor Delgado and Lem Luke be able to divert those very human enemies in time to create a weapon that can effectively defend humanity in the inexorable Second Formic War? THE ENDER UNIVERSE Ender series Ender ' s Game / Sparker for the Dead / Xenocide / Children of the Mind / Ender in Exile / Children of the Fleet Ender ' s Shadow series Ender ' s Shadow / Shadow of the Hegemon / Shadow Puppets / Shadow of the Giant / Shadows in Flight The First Formic War (with Aaron Johnston) Earth Unaware / Earth Afire / Earth Awakens The Second Formic War (with Aaron Johnston) The Swarm / The Hive Ender novellas A War of Gifts / First Meetings At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
