review to help users prioritize and retain the core concepts. Weiten surveys psychology's broad range of content with three aims: to illuminate the process of research and its intrinsic relationship to application (themes); to show both the unity and diversity of the subject (variations), and to invite users to the study of psychology by respecting their ability to master its fundamental concepts. Weiten's themes (including empiricism, theoretical diversity, sociohistorical contexts, multifactorial causation, cultural heritage, heredity and environment, and subjectivity of experience) and variations provide unifying threads across chapters that help users see the connections among different research areas in psychology.

Lilandra masterfully intuits the needs of everyone she meets and of the whole nation of Atani. By promising to meet those needs, she manipulates all she comes across. Even ancient wizards and a skilled Blademasters have needs. As a result, they too are played like puppets by her deft hand. By refusing to conform to the role the Goodfolk of his village assign him, Keven, a maligned bastard stable hand shows he has a deep understanding of his own needs. A travelling wizard who has had hope magically stolen from him sees a chance for hope in Keven. When the travelling duo of Keven and the wizard are violently separated, Keven is thrust into the cult-like nation of Atani. Can a man who has few needs resist someone who controls all needs? Need for Magic is also an academic examination of social psychology. By incorporating the concepts of cults, conformity and obedience, Joseph

Swope shows how manipulation of individuals and groups is far too easy and far too dangerous. In fact, there has been no greater power in history than that shown by an individual who is willing to sacrifice for a group. *Need for Magic* contains a detailed index of the social psychology ideas used by Lilandra to bend a nation to her will.

Foreword: "This volume is the cutting edge of positive psychology and the emblem of its future." -Martin E. P. Seligman, Ph.D., Fox Leadership Professor of Psychology, University of Pennsylvania, and author of *Authentic Happiness* Positive psychology is an exciting new orientation in the field, going beyond psychology's traditional focus on illness and pathology to look at areas like well-being and fulfillment. While the larger question of optimal human functioning is hardly new - Aristotle addressed it in his treatises on eudaimonia - positive psychology offers a common language on this subject to professionals working in a variety of subdisciplines and practices. Applicable in many settings and relevant for individuals, groups, organizations, communities, and societies, positive psychology is a genuinely integrative approach to professional
