Just in time for Father's Day, here is a unique, beautifully designed and illustrated golf guide by a top teaching pro. In this enlightening golf parable, a tycoon who takes his game very seriously learns "quantum golf" from a farmer in Iowa, and therein lies the secret of success--on the course and in life as well.

When John Smith throws his clubs into a pond, the club professional points him in the direction of Iowa. There Smith meets the world's greatest golf teacher, a farmer who projects an inner calm and has a seemingly mystical ability to sink every shot. This book describes his technique.

Augusto Tomas offers a truly unique perspective in this intriguing golf manual and spiritual guide. Drawing on an eclectic set of influences, he shows how the game has inspired his outer and inner journeys through life. Marshall Goldsmith, #1 Executive Coach in the World and New York Times #1 bestselling author of Triggers The Mystical Swings a creative golf journey, for a fluid swing and a fluent speech, through Mind, Body and Spirit. As a way of sharing the author travels and personal experiences, a taster class of 60 minutes, was developed where a set of Golfer model poses will be used as Art model poses, not for drawing but for writing purposes. By mastering a fluid golf swing, the author was able to overcome his own speech impediment, coming out of his shell by sharing his stuttering story like so many other golf legends did as Tiger Woods, Ken Venturi, Butch Baird and Sophie Gustafson. For all of us, stuttering was a blessing to become a better person! Assign of love from the 'Gods' to carry on the path for Greatness! To honor the Gods of Creativity, the ultimate quest of the author is to inspire the humankind for the magic benefits of Speaking from the Heart! The Mystical Swing taster class will be of interest to Golfers and other Curious people who are into golf, as well as life! Sales of The Mystical Swings will benefit SAY: The Stuttering Association for the Young, a 501(c)(3) non-profit organization that for more than a decade has provided life-changing experiences for children who stutter.

Reading Popular Physics is a valuable contribution to our understanding of the nature and implications of physics popularizations. A literary critic trained in science, Elizabeth Leane treats popular science writing as a distinct and significant genre, focusing particularly on five bestselling books: Stephen Hawking's A Brief History of Time, Steven Weinberg's The First Three Minutes, James Gleick's Chaos, M. Mitchell Waldrop's Complexity, and Gary Zukav's The Dancing Wu Li Masters. Leane situates her examination of the texts within the heated interdisciplinary exchanges known as the 'Science Wars', focusing specifically on the disputed issue of the role of language in science. Her use of literary analysis reveals how popular science books function as sites for 'disciplinary skirmishes' as she uncovers the ways in which popularizers of science influence the public. In addition to their explicit discussion of scientific concepts, Leane argues, these authors employ subtle textual strategies that encode claims about the nature and status of scientific knowledge - claims that are all the more powerful because they are unacknowledged. Her book will change the way these texts are read, offering readers a fresh perspective on this highly visible and influential genre.

Identifies six major golf personality types--fearful, frustrated, manic-depressive, self-conscious, control freak, and lazy--assesses the link between personality and performance, and advises how to overcome these obstacles. Original. 15,000 first printing.

As Michael Lewis's bestseller Moneyball captured baseball at a technological turning point, this "highly entertaining, very smart book" (James Patterson) takes us inside golf's clash between its hallowed artistic tradition and its scientific future. The world of golf is at a crossroads. As technological innovations displace traditional philosophies, the golfing community has splintered into two deeply combative factions: the old-school teachers and players who believe in feel, artistry, and imagination, and the technical minded who want to remake the game around data. In Golf's Holy War, "an obvious hole-in-one for golfers and their coaches" (Publishers Weekly, starred review), Brett Cyrgalis takes us inside the heated battle playing out from weekend hackers to PGA Tour pros. At the Titleist Performance Institute in Oceanside, California, golfers clad in full-body sensors target weaknesses in their biomechanics, while others take part in mental exercises designed to test their brain's psychological resilience. Meanwhile, coaches like Michael Hebron purge golfers of all technical information, tapping into the power of intuitive physical learning by playing rudimentary games. From historic St. Andrews to manicured Augusta, experimental communes in California to corporatized conferences in Orlando, William James to Ben Hogan to theoretical physics, the factions of the spiritual and technical push to redefine the boundaries of the game. And yet what does it say that Tiger Woods has orchestrated one of the greatest comebacks in sports history without the aid of a formal coach? But Golf's Holy War is more than just a book about golf--it's a story about modern life and how we are torn between resisting and embracing the changes brought about by the advancements of science and technology. It's also an exploration of historical legacies, the enriching bonds of education, and the many interpretations of reality.

The Six-Spoke Approach to Golf reveals what the world's top golf professionals know: To play your best you need to focus not just on technique but on all six aspects of playing well. If your body, mind, game analysis, practice regimen, equipment, and technique are not in balance and working with you, they're actually working against you. Golfers who follow the Six-Spoke Approach significantly improve their scores, have greater strength and flexibility, gain more confidence in their game, and demonstrate an increase in their overall satisfaction and enjoyment of golf.
