Scoring Guide For The Battelle Screener

The Battelle Developmental Inventory (BDI-2) was built on the theory that kids progress through milestones that build upon each other from simple to complex. The BDI-2 measures the functional and developmental skills of kiddos 0-7 years old, making it most useful for professionals that work with kiddos through the elementary school years.. The BDI-2 has 450 test items.

Read Online Scoring For The Battelle Screener

The highest possible total for the whole test would be sixty-three. This would mean you circled number three on all twenty-one questions. Since the lowest possible score for each question is zero, the lowest possible score for the test would be zero. This would mean you circles zero on each question.

Beck's Depression Inventory

When the test is scored, a value of 0 to 3 is assigned for each answer and then the total score is compared to a key to determine the depression's severity. The standard cut-off scores were as follows: 0–9: indicates minimal depression. 10–18: indicates mild depression. 19–29: indicates moderate depression.
