Solutions Manual For Statistical Inference E [Y (Y - 1)] = n (n - 1)a (a+1) is calculated similar to EY, but using the identity u0001 u0001 (a+b) (a+b+1) n n - 2 y (y - 1) y = n (n - 1) y - 2 and adding 2 instead of 1 to the parameter a. The sum over all possible values of a beta-binomial (n - 2, a + 2, b) will appear in the calculation.

Solutions Manual Statistical Inference 2nd edition by ... George Casella, Roger L. Berger. This book builds theoretical statistics from the first principles of probability theory. Starting from the basics of probability, the authors develop the theory of statistical inference using techniques, definitions, and concepts that are statistical and are natural extensions and consequences of previous concepts. Intended for first-year graduate students, this book can be used for students majoring in statistics who have a solid mathematics background.
