An artist and activist committed to the empowerment of women and girls has created a gorgeous illustrated volume, blending watercolor and short biography to showcase the contributions of more than fifty influential female leaders whose words and actions are a passionate call to arms. Distraught by the results of the 2016 election and the realization that the nation was not ready for its first female president, Kimothy Joy found herself poring over the biographies of brave women throughout history—those who persisted in the face of daunting circumstances—to learn from their experiences. Turning to art, Joy channeled her feelings to the canvas, bringing these strong women to life in bold watercolor portraits surrounded by inspirational hand-lettered quotes. With each creation, Joy found catharsis and hope. She shared her watercolors with her online community and encouraged everyone to raise their own voices and recharge for the battles ahead. Now, in this beautiful gift book, Joy has gathered her stunning illustrations and quotes and paired them with surprising, illuminating biographies of her subjects to inspire women of all ages, races, and backgrounds. That’s What She Said honors a powerful and diverse group of over fifty women—from Maya Angelou, Gloria Steinem, and Virginia Woolf to Sojourner Truth, Malala Yousafzai, and Ruth Bader Ginsburg—role models whose words and insights remind us that we must never give up the fight for a more just and equitable society. Reclaiming the derogatory cultural barb “that’s what she said,” this stunning book celebrates strong female leadership throughout history and empowers current and future generations to find their voices and inspire change in their communities.

Going beyond the message of Lean In and The Confidence Code, Gannett’s Chief Content Officer contends that to achieve parity in the office, women don’t have to change—men do—and in this inclusive and realistic handbook, offers solutions to help professionals solve gender gap issues and achieve parity at work. Companies with more women in senior leadership perform better by virtually every financial measure, and women employees help boost creativity and can temper risky behavior—such as the financial gambles behind the 2008 economic collapse. Yet in the United States, ninety-five percent of Fortune 500 chief executives are men, and women hold only seventeen percent of seats on corporate boards. More men are reaching across the gender divide, genuinely trying to reinvent the culture and transform the way we work together. Despite these good intentions, fumbles, missteps, frustration, and misunderstanding continue to inflict real and lasting damage on women’s careers. What can the Enron scandal teach us about the way men and women communicate professionally? How does brain circuitry help explain men’s fear of women’s emotions at work? Why did Kimberly Clark blindly have an all-male team of executives in charge of their Kotex tampon line? In That’s What She Said, veteran media executive Joanne Lipman raises these intriguing questions and more to find workable solutions that individual managers, organizations, and policy makers can employ to make work more equitable and rewarding for all professionals. Filled with illuminating anecdotes, data from the most recent relevant studies, and stories from Lipman’s own journey to the top of a male-dominated industry, That’s What She Said is a book about success that persuasively shows why empowering women as true equals is an essential goal for us all—and offers a roadmap for getting there.

She Said is a wonderful celebration of the wit and wisdom of women through the ages. In it you'll find writers, artists, politicians, actors, musicians, fashionistas, from Sappho to Beyoncé and Dorothy Parker to Carrie Fisher, all of whom have two things in common: brilliant minds and barbed wits that sting with their precision. Featuring women from as far back as 700 BC and right up to the modern day, the quotations and classic one-liners found here will inspire and delight, whether they are cheeky retorts from the outspoken, barbed reflections from the thoughtful or righteous indignation from the slighted. In the words of Elizabeth von Arnim (1866-1941), 'A woman's tongue is a deadly weapon and the most difficult thing in the world to keep in order.'

The important thing about The Important Book -- is that you let your child tell you what is important about the sun and the moon and the wind and the rain and a bug and a bee and a chair and a table and a pencil and a bear and a rainbow and a cat (if he wants to). For the important thing about The Important Book is that the book goes on long after it is closed.What is most important about many familiar things -- like rain and wind, apples and daisies -- is suggested in rhythmic words and vivid pictures. 'A perfect book . . . the text establishes a word game which tiny children will accept with glee.' -- K.
