series of essays written by mental health types who look at some of the mental health aspects of the show. I enjoyed several of them but lost interest in the book after about 75%-- it just seemed to get repetitive. I'll be doing a blog series on this book. I'll post the links here after they go live.

"The Psychology of Dexter' – Book Review | PSYCHOLOGY CORNER
Psychology of Dexter is an edited book of essays, showing that the first four seasons of Dexter use real life psychology to draw us in, and relate to the characters. It also explores the characters, asking questions such as what if Dexter isn't a psychopath but rather suffering from childhood PTSD?

THE PSYCHOLOGY OF DEXTER:
COMPLETELY UNAUTHORIZED By

...

Childhood Trauma and Post-Traumatic Stress Disorder (PTSD)
I propose that the show's implication that Dexter is a psychopath is a misdiagnosis and that, in fact, Dexter is a victim of childhood post-traumatic stress. At the age of five, Dexter experienced the most horrendous type of trauma imaginable.

tracks his victims, ensuring that they meet his code before they wind up on his table; Dexter Morgan only tracks and kills other killers to ease the burden of his psychosis. Though Dexter primarily focuses on the mental wanderings of its dark hero (the show is studded with voice-over commentary that delves into his state of mind), the mental lives of other characters are also fraught with psychological complications.

Psychology of Dexter, gain great insight into his often feeble attempt to appear normal within the boundaries of societal rules and norms. The Psychology of Dexter is a delicately woven compilation of contributing authors who are also experts in the fields of Criminology and Psychology. In each chapter, various authors and co-authors address a different Dexter-related topic from a slightly different angle.
