*The Trial Of Henry Kissinger*
The Trial of Henry Kissinger is a 2001 book by Christopher Hitchens examining the alleged war crimes of Henry Kissinger, the National Security Advisor and later United States Secretary of State for Presidents Richard Nixon and Gerald Ford. Acting in the role of the prosecution, Hitchens presents Kissinger's involvement in a series of alleged war crimes in Vietnam, Bangladesh, Chile, Cyprus and East Timor.

*The Trial of Henry Kissinger* - Wikipedia

Employing evidence based on firsthand testimony, unpublished documents, and new information uncovered by the Freedom of Information Act, and using only what would hold up in international courts of law, The Trial of Henry Kissinger outlines atrocities authorized by the former secretary of state in Indochina, Bangladesh, Chile, Cyprus, East Timor, and in the plight of the Iraqi Kurds, "including conspiracy to commit murder, kidnap, and torture."

*The Trial of Henry Kissinger: Hitchens, Christopher ...*

The film focuses on Christopher Hitchens' charges against Henry Kissinger as a war criminal - allegations documented in Hitchens' book of the same title - based on his role in countries such as Cambodia, Chile, and Indonesia. Kissinger's story raises profound questions about American foreign policy and highlights a new era of human rights.

*The Trials of Henry Kissinger (2002) - IMDb*

The Trial of Henry Kissinger unequivocally lambastes Kissinger's involvement, malfeasance, and outright criminality in American foreign policy decisions from Vietnam to Indonesia, Chile, Yugoslavia, and Cyprus - claims that if true, would certainly indict him on numerous counts as a war criminal.

Christopher Hitchens must have hoped that his labors would awake consciences and help bring Kissinger to a real trial but given Kissinger's place among those near the very summit of the pyramidal power structure that controls us, such a trial is most unlikely but it is a very interesting read. *The Trial of Henry Kissinger* - Wikipedia

In The Trial of Henry Kissinger, Christopher Hitchens shifts focus from Pinochet, Milosevic, Hussein, and Kim Jong-il to a man seemingly lauded and revered by the American people for what are undeniably war crimes: Henry Kissinger. Now available as a Signal paperback. Forget the regular cadre of war criminals that pollute our news headlines day in and day out; we need look no further than America's own celebrated leaders for a war criminal whose offenses rival those of the most heinous dictators in recent history: Henry Kissinger. Employing evidence based on firsthand testimony, unpublished documents, and new material uncovered by the Freedom of Information Act, and using only what would hold up in international courts of law, The Trial of Henry Kissinger outlines worldwide atrocities authorized by the former secretary of state--among them "conspiracy to commit murder, kidnap, and torture." With the precision and tenacity reminiscent of a prosecutor presenting his case, Hitchens offers readers an unrepentant, honest portrait of Kissinger, and implores governments around the world, including our own, to swiftly bring him to justice.

Calling upon personal testimony and documents released under the Freedom of Information Act, chronicles the life of Henry Kissinger, linking him to events including the war in Indochina and genocide in East Timor.

Calling upon personal testimony and documents released under the Freedom of Information Act, chronicles the life of Henry Kissinger, linking him to events including the war in Indochina and genocide in East Timor.

'A good liar must have a good memory: Kissinger is a stupendous liar with a remarkable memory.' Christopher Hitchens Christopher Hitchens goes straight for the jugular in The Trial of Henry Kissinger. Under his fearsome gaze, the former Secretary of State and National Security Advisor is accused of being a war criminal whose reckless actions and heinous disregard for international law have led to torture, kidnapping, and murder. This book is a polemical masterpiece by a man who, for forty years, was the Anglosphere's preeminent man of letters. In The Trial of Henry Kissinger, Hitchens' verve, style and firebrand wit are on show at the height of their potency. 'This is a disturbing glimpse into the dark side of American power, whose consequences in remote corners of the globe are all too often ignored. Its countless victims have found an impassioned and skilful advocate in Christopher Hitchens.' - Sunday Times

Irascible and forthright, Christopher Hitchens stood out as a man determined to do just that. In his younger years, a career-minded socialist, he emerged from the smoke of 9/11 a neoconservative “Marxist,” an advocate of America’s invasion of Iraq filled with passionate intensity. Throughout his life, he played the role of universal gadfly, whose commitment to the truth transcended the party line as well as received wisdom. But how much of this was imposture? In this highly critical study, Richard Seymour casts a cold eye over the career of the “Hitch” to uncover an intellectual trajectory determined by expediency and a fetish for power. As an orator and writer, Hitchens offered something unique and highly marketable. But for all his professed individualism, he remains a recognizable historical type—the apostate leftist. Unhitched presents a rewarding and entertaining case study, one that is also a cautionary tale for our times.

“Dazzling and instructive . . . [a] magisterial new book.” —Walter Isaacson, Time “An astute analysis that illuminates many of today’s critical international issues.” —Kirkus Reviews Henry Kissinger offers in World Order a deep meditation on the roots of international harmony and global disorder. Drawing on his experience as one of the foremost statesmen of the modern era—advising presidents, traveling the world, observing and shaping the central foreign policy events of recent decades—Kissinger now reveals his analysis of the ultimate challenge for the twenty-first century: how to build a shared international order in a world of divergent historical perspectives, violent conflict, proliferating technology, and ideological extremism. There has never been a true “world order,” Kissinger observes. For most of history, civilizations defined their own concepts of order. Each considered itself the center of the world and envisioned its distinct principles as universally relevant. China conceived of a global cultural hierarchy with the emperor at its pinnacle. In Europe, Rome imagined itself surrounded by barbarians; when Rome fragmented, European peoples refined a concept of an equilibrium of sovereign states and sought to export it across the world. Islam, in its early centuries, considered itself the world’s sole legitimate political unit, destined to expand indefinitely until the world was brought into harmony by religious principles. The United States was born of a conviction about the universal applicability of democracy—a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process or its ultimate destination. The result is mounting tension. Grounded in Kissinger’s deep study of history and his experience as national security advisor and secretary of state, World Order guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration’s negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan’s tense debates with Soviet Premier Gorbachev in Reykjavik. He offers compelling insights into the future of U.S.–China relations and the evolution of the European Union, and he examines lessons of the conflicts in Iraq and Afghanistan. Taking readers from his analysis of nuclear negotiations with Iran through the West’s response to the Arab Spring and tensions with Russia over Ukraine, World Order anchors Kissinger’s historical analysis in the decisive events of our time. Provocative and articulate, blending historical insight with geopolitical prognostication, World Order is a unique work that could come only from a lifelong policy maker and diplomat. Kissinger is also the author of On China.

[Henry Kissinger and American Power] effectively separates the man from the myths.” —The Christian Science Monitor | Best books of August 2020 The definitive biography of Henry Kissinger—at least for those who neither revere nor revile him Over the past six decades, Henry Kissinger has been America's most consistently praised—and reviled—public figure. He was hailed as a “miracle worker” for his peacemaking in the Middle East, pursuit of détente with the Soviet Union, negotiation of an end to the Vietnam War, and secret plan to open the United States to China. He was assailed from the left and from the right for his indifference to human rights, complicity in the pointless sacrifice of American and Vietnamese lives, and reliance on deception and intrigue. Was he a brilliant master strategist—“the 20th century’s greatest 19th century statesman”—or a cold-blooded monster who eroded America’s moral standing for the sake of self-promotion? In this masterfully researched biography, the renowned diplomatic historian Thomas Schwartz offers an authoritative, and fair-minded, answer to this question. While other biographers have engaged in hagiography or demonology, Schwartz takes a measured view of his subject. He recognizes Kissinger’s successes and acknowledges that Kissinger thought seriously and with great insight about the foreign policy issues of his time, while also recognizing his failures, his penchant for backbiting, and his reliance on ingratiating and fawning praise of a source of power. Throughout, Schwartz stresses Kissinger’s artful invention of himself as a celebrity diplomat and his domination of the medium of television news. He also notes Kissinger’s sensitivity to domestic and partisan politics, complicating—and undermining—the image of the far-seeing statesman who stands above the squabbles of popular strife. Rounded and textured, and rich with new insights into key dilemmas of American power, Henry Kissinger and American Power stands as an essential guide to a man whose legacy is as complex as the last sixty years of US history itself.

A new portrait of Henry Kissinger focusing on the fundamental ideas underlying his policies: Realism, balance of power, and national interest. Few public officials have provoked such intense controversy as Henry Kissinger. During his time in the Nixon and Ford administrations, he came to be admired and hated in equal measure. Notoriously, he believed that foreign affairs ought to be based primarily on the power relationships of a situation, not simply on ethics. He went so far as to argue that under certain circumstances America had to protect its national interests even if that meant repressing other countries' attempts at democracy. For this reason, many today on both the right and left dismiss him as a latter-day Machiavelli, ignoring the breadth and complexity of his thought. With The Inevitability of Tragedy, Barry Gewen corrects this shallow view, presenting the fascinating story of Kissinger’s development as both a strategist and an intellectual and examining his unique role in government through his ideas. It analyzes his contentious policies in Vietnam and Chile, guided by a fresh understanding of his definition of Realism, the belief that world politics is based on an inevitable, tragic competition for power. Crucially, Gewen places Kissinger’s pessimistic thought in a European context. He considers how Kissinger was deeply impacted by his experience as a refugee from Nazi Germany, and explores the links between his notions of power and those of his mentor, Hans Morgenthau—the father of Realism—as well as those of two other German-Jewish émigrés who shared his concerns about the weaknesses of democracy: Leo Strauss and Hannah Arendt. The Inevitability of Tragedy offers a thoughtful perspective on the origins of Kissinger’s sober worldview and argues that a reconsideration of his career is essential at a time when American foreign policy lacks direction.

Based on insider accounts of the role the U.S. State Department legal adviser played during the major crises from the Carter administration to that of George W. Bush, this book explores whether international law is real law or just a form of politics that policymakers are free to ignore whenever they perceive it to be in their interest to do so.

\* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. \*As you read this summary, you will discover how Henry Kissinger, Nixon's Secretary of State and a respected adviser around the world, was the instigator of numerous massacres, kidnappings, torture and other misdeeds of all kinds. Christopher Hitchens, an English author and journalist, reveals the evidence to support how the eminent gray eminence of American presidents pulled the strings of unscrupulous diplomacy from 1968 to 1977. \*You will also discover that : Henry Kissinger led diplomatic actions in support of several dictatorships responsible for large-scale genocides: The United States prioritized its national interest and Realpolitik in the resolution of conflicts in Indochina, Bangladesh, Cyprus and East Timor; Henry Kissinger remains an indisputable specialist in so-called "two-track" secret diplomacy, which he uses both to serve his country and his own interests; If applied, international criminal law would bring about the downfall not only of the former Secretary of State, but also of entire sections of the American executive branch in the 1970s. \*It is a real charge against Kissinger, backed up by excerpts from memoranda and telegrams, that Christopher Hitchens is making. So much so that with all the written evidence available and all that is yet to come, it is incomprehensible that a Secretary of State of the world's greatest power could have carried out such actions with impunity. Six cases have been sifted through, those in which Kissinger holds significant responsibility and which have led many innocent people to their deaths in the name of reason of state. \*Buy now the summary of this book for the modest price of a cup of coffee!
